

CURRICULUM VITAE
FOR
ROBERT MONSERRATE

(Text of presentation given by Randall Beaty at presentation of Cal Rayburn Award to Bob Monserrate)

BOB MONSERRATE RECEIVES CAL RAYBURN AWARD

Robert (Bob) Monserrate has long been a fixture at IACT Conferences supporting the organization through service since the beginning. Bob was born in Jersey City, New Jersey and graduated from high school in Bayonne, New Jersey. Bob and wife Linda have been married since 8/11/73 and have three children Michele, Diana and Matthew.

He attended college at Evangel College in Springfield, Missouri graduating in 1974 with a BS with a major in Biology and Education and a minor in General Science. He did graduate work at the University of Missouri in Columbia.

Bob taught Chemistry, Biology and General Science in Norwood, Missouri high school in 1974-1975 and worked as a Senior Laboratory Technician 1976-1979 at the University of Missouri Agricultural Lab in Columbia.

In 1979 Bob accepted a criminalist position with the Iowa Department of Public Safety, Division of Criminal Investigation, Criminalistics Laboratory in Des Moines where he is still employed. Bob's responsibilities include:

- Scientific analysis of materials submitted to the state crime lab by law enforcement agencies as a part of their investigation relating to a criminal act. This includes blood, urine and other body fluids by chemical and instrumental methods to determine if they contain drugs
- Providing "expert" testimony in criminal cases; having testified in over 700 cases regarding drugs, alcohol, crime scenes, evidential breath testers. etc.
- Providing maintenance and certification of evidential breath testing instruments (Intoxilyzer 4011A's & DataMaster cdm's) and preliminary breath testers (PBT's)

CURRICULUM VITAE
FOR
ROBERT MONSERRATE

- Training, supervision and certification of police officers in the operation of direct breath testing instruments and in critical incident stress management
- Training and supervision of other criminalists in lab procedures for toxicology, alcohol testing, crime scene investigations and court testimony
- Crime scene investigations including photography, notes, reports, autopsies and evidence collection at death investigations.
- Recovery and identification of disaster victims

As a private citizen he has been involved in

- *Critical Incident Stress Management Psychological Services*
- *Since 1995 he has been a member of the Federal Disaster Mortuary Operational Response Team - National Disaster Medical System – assisting the *medical examiner with recovery, identification and body preparation of the deceased victims.**

Bob is a charter member of the International Association For Chemical Testing (IACT) and has worked to uphold its purposes: to promote the professionalism, scientific aspects, advancement and continuing development of alcohol and drug testing programs.

Bob has served as:

- A member of the Publications Committee from 1990-2002
- Chair of the Nominating Committee 1994-2000
- Executive Board member 1996-2000
- Vice-president 2000-2002

Bob has worked actively in a number of critical incidents such as:

- A member of the Central Iowa Critical Incident Stress Management (CISM) team coordinator and peer team member since 1990.
- A member of the Board of Directors of the American Red Cross- Critical Incident Stress Management Program Chair 1996-1999.
- A Christian Relief-Advisor and Crisis Management team leader and trainer during the Iowa floods in 1993.
